Old Time Hockey

Old time hockey was a much different game than the NHL of today. The game was played on outdoor rinks, and the players wore heavy wool sweaters and leather helmets. The puck was made of wood, and it was much harder to control than the rubber puck that is used today. The sticks were also made of wood, and they were much shorter and less flexible than the sticks that are used today.

Old time hockey was a much more physical game than the NHL of today. Fighting was common, and players were not afraid to use their fists to settle disputes. The game was also much slower, and there was less scoring. The average score in an old time hockey game was around 2-1.

Despite the differences, old time hockey was a great game. It was a game of skill, toughness, and determination. The players were true pioneers, and they helped to create the game that we know and love today.
