## Test Format

Our IELTS Listening practice test consists of four sections, each with ten questions. The sections progress in difficulty, exposing you to increasingly complex listening materials.

- Section 1: A conversation between two people in an everyday setting
- Section 2: A monologue on a general topic, such as travel or education
- Section 3: A conversation between up to four people in an educational or training context
- Section 4: A monologue on an academic topic, such as science or history

The listening materials are authentic and reflect real-life scenarios you may encounter in English-speaking environments. The test duration is approximately 30 minutes, providing you with ample time to listen to the recordings and complete the questions.

## Question Types

The IELTS Listening practice test incorporates a variety of question types to assess your listening skills comprehensively.

- **Multiple choice:** Select the best answer from a list of options
- **True/False/Not Given:** Determine if a statement is true, false, or not mentioned in the recording

- **Form completion:** Fill in missing information from the recording
- **Note completion:** Take notes while listening and complete sentences based on the information provided
- **Diagram labeling:** Identify and label parts of a diagram based on the instructions heard in the recording

These question types mirror those used in the actual IELTS Listening test, ensuring that you are familiar with the format and expectations.

## **Scoring System**

Your performance on the IELTS Listening practice test is scored based on the number of correct answers. The scoring system is the same as the official IELTS test.

- Each correct answer is worth one point
- There is no penalty for incorrect answers
- Your raw score is converted to a band score ranging from 0 to 9

The minimum passing score for most institutions and organizations is band 6.0, so aim to score at least 30 out of 40 on the practice test to gauge your readiness.
